

K GANESH

Bengaluru, Karnataka | +91 9182661393 | reddysganigani@gmail.com | [linkedin.com/in/k-ganesh-91b9b6323](https://www.linkedin.com/in/k-ganesh-91b9b6323)

PROFESSIONAL SUMMARY

Aspiring Java Full Stack Developer with strong foundations in Core Java, SQL, HTML, CSS, JavaScript, and React, coupled with hands-on practical exposure to Python Full Stack development, Cloud Computing (AWS), and Machine Learning through multiple virtual internships. Passionate about designing robust web applications and applying deep learning solutions to solve real-world problems.

TECHNICAL SKILLS

- **Programming Languages:** Java (Core Java, OOPs), Python, SQL, JavaScript
- **Web & Frameworks:** HTML, CSS, React, Spring, Hibernate, Flask
- **Cloud & AI/ML:** Amazon Web Services (AWS), Deep Learning, CNN, Machine Learning
- **Tools & Platforms:** Git, GitHub, VS Code, Eclipse
- **Soft Skills:** Problem Solving, Teamwork, Communication, Quick Learning, Adaptability

EDUCATION

B.Tech in Computer Science & Engineering	2022 – 2026
<i>Dr. K.V. Subba Reddy Institute of Technology</i>	CGPA / Percentage: 70%
Intermediate (MPC)	2020 – 2022
<i>Sri Vivekananda Junior College</i>	Marks: 549
Secondary School Certificate (SSC)	2020
<i>Z.P. High School, Menatampalle</i>	Marks: 424

WORK & INTERNSHIP EXPERIENCE

Python Full Stack Development Intern	2025 – 2026
<i>Glossary Soft Tech Pvt. Ltd. (APSCHE)</i>	
• Developed responsive, end-to-end web applications using Python and the Flask framework. • Integrated SQL database systems for structured data modeling, efficient querying, and data workflows. • Gained hands-on expertise across full stack lifecycle: frontend integration, backend APIs, and system debugging.	

KEY PROJECTS

A Machine Learning-Based Predictive Analytics Framework for Early Diagnosis of OCD	Major Project
<i>Tech Stack:</i> Python, Flask, CNN, Deep Learning, Decision Tree, Random Forest, SQL	
• Engineered an AI-powered healthcare diagnostic web app to predict OCD subtypes with high predictive precision. • Implemented and benchmarked multiple ML/DL architectures including CNN, Decision Trees, and Random Forests. • Developed a comprehensive Flask web portal featuring dataset uploads, automated model retraining, real-time prediction output, and secure administrative authentication.	

CERTIFICATIONS & VIRTUAL INTERNSHIPS

• Python Full Stack Development – APSCHE / Glossary Soft Tech	Apr 2026
• Cloud Gen AI Virtual Internship – AWS / AICTE EduSkills	Sep 2025
• AICTE EduSkills Virtual Internship Certifications	2025 – 2026

ADDITIONAL INFORMATION

- **Languages:** English, Telugu
- **Extracurriculars:** Active participant in coding challenges, technical workshops, and continuous online upskilling programs
